Client Success Stories

Case I: Engitel (Europe) — ISMETT Project

Partner Role: White-label Development Partner

Year: 2022

Focus: International School of Medical Sciences & Technology (ISMETT)

- **Challenge:** Building a high-performance web ecosystem for a prestigious medical institution requiring absolute uptime and enterprise-grade security.
- **Solution:** Developed a custom end-to-end web architecture optimized for performance and accessibility. Focused on specialized content delivery for the medical community.
- **Outcome:** Seamless digital integration for ISMETT, resulting in a 40% improvement in page load speeds and a robust foundation for institutional data management.

Case II: Whitbread Group (UK)

Partner Role: Development Partner

Timeline: Dec 2025 (Projected Delivery)

Brands: Whitbread Corporate, Premier Inn

- **Challenge:** Modernizing the corporate digital identity for one of the UK's largest hospitality groups, ensuring compliance with strict enterprise standards and brand consistency.
- **Solution:** Implementation of a scalable web framework designed to handle high-traffic enterprise demands while maintaining brand-aligned UX and design fidelity.
- **Outcome:** A future-proof digital platform that aligns Premier Inn's hospitality standards with Whitbread's corporate governance requirements.

Case III: Canada Star Secondary School (Canada)

Partner Role: Primary Technology Partner

Year: 2020

- **Challenge:** Transitioning a traditional educational institution to a digital-first communication and resource management model.
- **Solution:** Development of a specialized educational portal featuring intuitive CMS integration for faculty and an information-rich architecture for prospective students.
- **Outcome:** Enhanced stakeholder engagement and a modernized digital presence that serves as the primary hub for school admissions and internal resources.

Case IV: TCG Group (India)

Engagement Type: Strategic Long-term Partnership

Since: 2022

- **Scope:** Industrial and enterprise technology solutions for a multi-sector conglomerate.
- **Strategy:** Acting as the extended CTO office for TCG's various industrial arms, focusing on digital process optimization and custom internal software.
- **Outcome:** Ongoing delivery of agile, industry-specific solutions that have streamlined operations across TCG's enterprise portfolio.

Engagement Models

VAIBWORK provides flexible partnership structures designed to align with enterprise procurement and project cycles:

- **White-label Development:** We act as the technical engine for global agencies and consulting firms, delivering high-quality code under their brand.
- **Enterprise Direct:** Strategic partnerships focusing on large-scale migrations, SaaS development, and custom internal tools.
- **Strategic Staff Augmentation:** Providing dedicated technical units for long-term project lifecycles.

Why Enterprises Choose VAIBWORK

- **Execution at Scale:** Over 800 projects delivered with a track record of handling high-traffic, mission-critical systems.
- **Global Perspective:** Experience across UK, European, Canadian, and Indian markets, ensuring adherence to regional compliance and standards.

- **Technical Maturity:** From healthcare (ISMETT) to hospitality (Whitbread), our architecture is built for stability and future growth.
